

ANKARA SCIENCE UNIVERSITY

2026–2027 ACADEMIC YEAR SPRING SEMESTER ERASMUS+ STUDENT MOBILITY FOR STUDIES CALL FOR APPLICATIONS

2025-1-TR01-KA131-HED-000310333

2025-1-TR01-KA131-HED-000306882

2026-1-TR01-KA131-HED-000408854

APPLICATION AND SELECTION CALENDAR

30/09/2026–20/10/2026 Online Applications

22/10/2026 – Foreign Language Test (to be administered by the English Preparatory School)

22/10/2026 – Announcement of Test Results (by the English Preparatory School)

Test results will be announced on the Ankara Bilim University English Language School / Preparatory School webpage:

<https://ankarabilim.edu.tr/ingilizce-dil-okulu>

Students who score 60 or above in the test will be eligible to take the Writing and Speaking Exams.

23/10/2026 – Writing Exam (to be administered by the English Preparatory School)

23/10/2026 – Speaking (Oral) Foreign Language Exam (to be administered by the English Preparatory School)

26/10/2026 – Announcement of Provisional Results

Provisional results will be announced on the following webpage:

<https://ankarabilim.edu.tr/erasmus-koordinaturlugu>

26/10/2026–27/10/2026 – Appeal Period

30/10/2026 – Announcement of Final Results

Final results will be announced on the following webpage:

<https://ankarabilim.edu.tr/erasmus-koordinaturlugu>

30/10/2026–30/11/2026 – Withdrawal Period for Grant-Funded Candidates

Students selected for mobility may withdraw during this period without any point deduction.

GENERAL INFORMATION

1. Students wishing to participate in Student Mobility for Studies must be full-time students enrolled in an undergraduate programme at Ankara Bilim University and must maintain this status throughout the spring semester of the 2026–2027 academic year, during which the mobility will take place. For one semester of study mobility, students are expected to follow an academic workload of 30 ECTS, consisting of courses or non-course academic activities. Exceptional circumstances will be assessed separately in accordance with the University's internal regulations.
2. Where partner universities impose an additional language requirement in English or another foreign language, students must ensure that they meet that requirement. Students are responsible for any loss of rights resulting from failure to meet the language requirement.
3. Only full-time students enrolled in undergraduate programmes at Ankara Bilim University may apply for Erasmus+ Student Mobility for Studies. By decision of the Erasmus+ Selection Committee, no quota has been allocated in this call to associate degree programmes offered by the Vocational School or to graduate programmes offered by the Institute; applications from students enrolled in these programmes will not be evaluated. Preparatory-class and final-year students may not apply. First-year students may apply from the second semester of their first year but may undertake the mobility no earlier than their second year.
4. Undergraduate applicants must have a minimum cumulative Grade Point Average (GPA) of 2.20/4.00.
5. Applications must be submitted online through the Turkish National Agency Erasmus Application Portal using e-Government credentials. The application process is carried out entirely by the applicant. Applicants must carefully review this call and act accordingly so that their applications can be completed and properly evaluated.
6. Course Selection and ECTS Requirement: Before adding universities to their preference list, students must carefully review the course catalogues of the relevant institutions. If the partner university does not offer at least 30 ECTS of courses taught in English, study mobility cannot be undertaken at that institution. Students are responsible for any resulting loss of rights. In addition, students must have a course load of at least 30 ECTS at Ankara Bilim University (ABU) during the semester in which the mobility will take place.
7. If changes are made to the courses to be taken at the partner university during the mobility, a workload of at least 30 ECTS must be maintained at both institutions under the updated Learning Agreement.
8. Students holding green (special) or grey passports must obtain a visa for Erasmus+ study mobility even if they are otherwise exempt from visa requirements. As some countries do not affix visas to green passports, students must carefully review the visa procedures of the destination country and, where necessary, apply using an ordinary (burgundy) passport. Where no visa is affixed following an application made with a green passport, no grant payment will be made until the student has entered the country in which the partner university is located and obtained a residence permit. Ankara Bilim University (ABU) does not issue grey passports to students.
9. Visa procedures under the Erasmus+ Programme are entirely the responsibility of the student. The relevant units of Ankara Bilim University (ABU) do not take part in visa application procedures; students must contact the consulate or authorised intermediary body of the relevant country regarding visa matters.
10. Whether an application is considered eligible where the student is subject to an ongoing disciplinary investigation or has received a disciplinary penalty during their studies at Ankara Bilim University (ABU) is at the discretion of the ABU Erasmus+ Committee. If such a circumstance is identified after the results have been announced, the student's mobility may be cancelled.

APPLICATION PRINCIPLES

11. Students are responsible for arranging and monitoring their accommodation. Some partner universities may offer on-campus or off-campus accommodation and may require a separate application. Students must consult the official websites of partner universities regarding accommodation options and deadlines and complete the necessary procedures on time. Ankara Bilim University has no obligation to provide or guarantee accommodation under the Erasmus+ Programme.
12. Applications containing incomplete or outdated documents or incorrect information will not be evaluated. Applicants are responsible for preparing all documents completely and accurately and uploading them to the system within the application period. Requests to add or replace documents after the application deadline will not be accepted.

13. When selecting a partner university, students must consider the institution's academic calendar, language of instruction, course availability, accommodation conditions, visa and residence permit procedures, and health insurance requirements. Students are responsible for carrying out the necessary research, verifying the application requirements, and following the relevant procedures on time.

FOREIGN LANGUAGE REQUIREMENT

1. Applicants for Erasmus+ Student Mobility for Studies must document their foreign language proficiency either through the Foreign Language Proficiency Exam to be organised by our University under this call or through an accepted foreign language exam result. Results from the University's Foreign Language Proficiency Exam and internationally recognised examinations such as TOEFL and E-TOP are accepted. Preparatory-class exemption/proficiency examinations are not accepted.
2. The results of students taking the foreign language exam organised by Ankara Bilim University (ABU) under this call will be entered into the application system by the relevant unit. Therefore, these students are not required to upload a separate foreign language result document or enter a score during the application.
3. Students wishing to take the Erasmus+ Foreign Language Exam organised by the University only need to select the option 'I Want to Take the Erasmus Language Exam' when applying through Turna Portal. No separate exam application form is required.
4. Result documents for accepted foreign language examinations other than the University's own exam (TOEFL, E-TOP, etc.) must be uploaded to Turna Portal during the application. The equivalent score must be at least 60 out of 100. Students who do not have a sufficient score may take the foreign language exam organised by the University under this call.
5. Where an applicant has more than one valid foreign language exam result, the highest score among the University's Erasmus+ foreign language exams and other accepted foreign language exams will be taken into consideration.
6. The written exam assesses reading, use of language, listening, and writing; the oral exam assesses speaking skills.
7. In the foreign language exam administered by the University, the written exam accounts for 80% and the oral exam for 20% of the final foreign language score.
8. The minimum foreign language threshold for participation in Erasmus+ Student Mobility for Studies is 60 (sixty) points.
9. The results of all previous foreign language exams administered by the University's School of Foreign Languages under Erasmus+ are valid for this application period, and applicants may apply using their existing scores.

QUOTA PRINCIPLES

- A total of 17 students are planned to receive grant support for study mobility under this call. Sixteen quotas will be financed from Ankara Bilim University's institutional Erasmus+ projects, and one quota will be financed under the Erasmus+ Higher Education Mobility Consortium Project coordinated by Uşak University, of which Ankara Bilim University is a partner. The one-person consortium quota is included in the total quota of 17 and is not an additional quota.

DETERMINATION AND DISTRIBUTION OF QUOTAS

- Quotas have been determined by taking into account student density in the relevant faculties and departments. In line with student numbers and the proximity of academic fields, a joint quota has been allocated to certain departments. Students applying under a joint quota will be evaluated within the same ranking based on their final Erasmus+ evaluation scores.

QUOTA DISTRIBUTION

Faculty and Department	Quota
Faculty of Fine Arts and Design	2
Interior Architecture and Environmental Design (English)	1
Film Design and Management and New Media and Communication (English)	Joint quota: 1
Faculty of Law	2
Law	2
Faculty of Humanities and Social Sciences	7
Management Information Systems (Turkish) and Management Information Systems (English)	Joint total: 2
Business Administration (English) and Political Science and Public Administration (English)	Joint quota: 1
English Translation and Interpreting	1
Psychology (English)	1
Psychology (Turkish)	2
Faculty of Engineering and Architecture	6
Computer Engineering (Turkish) and Computer Engineering (English)	Joint total: 2
Information Systems Engineering (English)	1
Electrical and Electronics Engineering (English)	1
Industrial Engineering (English)	1
Software Engineering (English)	1
GRAND TOTAL	17

SELECTION PRINCIPLE UNDER THE UŞAK UNIVERSITY MOBILITY CONSORTIUM

- This call also includes one (1) grant-funded student study mobility quota provided under the Erasmus+ Higher Education Mobility Consortium Project No. 2025-1-TR01-KA131-HED-000306882, coordinated by Uşak University.
- No separate application will be accepted for the consortium quota. The student to be selected under this quota will be determined on the basis of the application requirements, foreign language requirement, and evaluation criteria set out in this call. Among the students included in the total grant-funded placement of 17 who meet the eligibility requirements of the consortium project, the student with the highest final Erasmus score will be funded under the Uşak University Mobility Consortium. In the event of a tie, the tie-breaking rules stated in this call will apply. The project under which the student is funded will be clearly indicated in the final results list.

ADDITIONAL GRANT AND QUOTA INCREASE

- The University has requested additional funding under the 2025 Contract Period. If additional funding is allocated to the University by the Turkish National Agency, the grant-funded quota of 17 specified in this call may be increased.
- If additional funding is allocated, the resulting additional quota will be assigned to the department with the highest number of enrolled students as of the application opening date and with an inter-institutional agreement suitable for study mobility. Selection will be based on the final Erasmus score ranking of applicants from that department. In the event of a tie, the tie-breaking rules stated in this call will apply.
- If the department with the highest number of students has no eligible applicant who meets the application requirements and has not yet been placed in a grant-funded quota, the additional quota will be assigned to the next department with the highest number of enrolled students among departments meeting the same conditions.
- The allocation of additional funding and quotas will be finalised by decision of the Erasmus+ Selection Committee, and the updated quotas will be announced on the University's Erasmus Coordination Office webpage.

USE AND TRANSFER OF QUOTAS

- Students applying under a joint quota will be evaluated within the same ranking based on their final Erasmus+ evaluation scores.
- A quota left vacant because no application is received from a department or joint quota group, or because applicants do not meet the requirements, will first be transferred to another department within the same faculty that has an eligible applicant who meets the requirements and has not yet been placed in a quota.
- If no eligible candidate is available within the same faculty, the vacant quota will be transferred, on the basis of the University's current student numbers, to the department with the highest number of students among departments that have an eligible applicant who meets the requirements and has not yet been placed in a quota.
- The final allocation of quotas will be carried out by the Ankara Bilim University Erasmus+ Selection Committee in accordance with the Erasmus+ Programme Guide and the relevant implementation principles.

COURSE MATCHING AND LEARNING AGREEMENT PROCESS

- Mobility may be undertaken only at universities and departments with which Ankara Bilim University (ABU) has a valid inter-institutional agreement. If no valid agreement exists for the student's department, the application will not be evaluated. Information on partner universities is available through the relevant link.
- Students must review the course catalogues of the partner universities they intend to select and assess their suitability for the course matching process.
- Students must remain in contact with their faculty/department Erasmus+ coordinators during the course matching process and carry out all procedures subject to the coordinator's approval.
- The academic workload to be followed for one semester at Ankara Bilim University and at the partner university should be 30 ECTS.
- The number of courses taken at ABU and at the partner university, and the individual and total ECTS values of those courses, may differ. Accordingly, students may match different numbers of courses in their Learning Agreements.
- The content of courses taken at ABU and at the partner university does not have to be identical. However, the courses must be compatible in terms of content, learning outcomes, and academic competence, and the course matching must be approved by the relevant academic units.
- The Learning Agreement must be approved by the student, Ankara Bilim University, and the partner university before the mobility begins. Course changes required after the start of the mobility must be made through the 'During the Mobility' section of the Learning Agreement and submitted for approval by all parties.

GENERAL PROVISIONS AND MOBILITY PRINCIPLES

1. With the knowledge and approval of their departmental Erasmus+ coordinator, students may take elective or compulsory courses from lower or upper semesters, other departments, or other academic units.
2. Being selected following the application process does not guarantee that the student will participate in mobility. The partner university at which the student is placed reserves the right not to accept the nominated student.
3. Students who were selected in a previous application period or received acceptance from a partner university but could not undertake the mobility within the relevant project and grant agreement period cannot be transferred directly to a subsequent project or application period on the basis of an acquired right. Applying under a previous call or having been successful in a previous selection process does not constitute an acquired right. Such students must apply again under the new call and participate in the evaluation process.
4. Students who meet the application requirements may apply regardless of whether they are Turkish citizens or foreign nationals. Although there is no restriction based on nationality, foreign-national applicants must meet the residence permit, passport, and visa requirements set out in this call.
5. Foreign-national students must hold a valid Republic of Türkiye Residence Permit at the time of application, with validity covering the entire planned mobility period and extending at least until 1 August 2027. Applications from students whose residence permits expire before 1 August 2027 or whose residence permit extension applications have not yet been concluded will not be evaluated. This rule is intended to prevent the loss of students and quotas that may arise if students are unable to apply for a visa or exercise their mobility rights due to residence permit issues. The front and back of the Residence Permit must be uploaded to the application system as a single PDF file, while the passport page containing personal information must be uploaded as a separate PDF file.

APPLICATION AND EVALUATION CRITERIA

Applications will be evaluated using a points-based system. Scoring will be calculated out of 100 points using the criteria and weights below:

Criteria	Score
Academic achievement level (100-point system)	50%
Foreign language level	50%
Children of martyrs and veterans	+15 points
Students with disabilities, subject to documentation	+10 points
Students who are or have been subject to a protection, care, or accommodation order under Law No. 2828 on Social Services or Law No. 5395 on Child Protection	+10 points
Students themselves, or whose first-degree relatives (biological/step), receive disaster-victim assistance from AFAD	+10 points
Previous participation, with or without a grant	-10 points
Participation in mobility in the country of citizenship	-10 points
Failure to participate in mobility without submitting a withdrawal notification (applied to the next application)	-10 points
For selected students: Unexcused failure to attend mobility-related meetings/trainings organised by the higher education institution (applied if the student applies for Erasmus+ again)	-5 points

PLACEMENT AND RANKING PRINCIPLES

- In the final evaluation list, each student will be ranked by score among applicants from their own department.
- Where applicants within the same department have equal scores, priority will be given first to the applicant with the higher academic achievement grade; if academic grades are also equal, to the applicant in the higher year of study; and if the year of study is also equal, to the younger applicant.
- Placement at partner universities will be carried out by considering the final Erasmus score, order of preference, inter-institutional agreement quota, and the partner university's application requirements.
- The application and evaluation criteria have been determined on the basis of the Erasmus+ Programme Guide and the Turkish National Agency Handbook for Higher Education Institutions for the 2025 and 2026 contract periods.

GRANT AND FINANCIAL PRINCIPLES

1. Within the budget currently allocated to the University, grant support is planned for a total of 17 students. If the Turkish National Agency allocates additional funding to the University, this number may be increased in accordance with the quota increase principles stated in this call. To enable more students to benefit, each student will receive grant support for one semester.
2. Students participating in Erasmus+ Student Mobility for Studies receive a monthly grant for the period spent abroad at the rates determined by the European Commission.
3. Grant payments are made in two instalments. Seventy per cent (70%) of the calculated total grant is paid before the mobility. The remaining 30% is paid after the mobility, once the student has fulfilled all obligations, submitted the required documents in full, and any applicable grant deductions have been calculated.
4. Students who are not allocated a grant may withdraw from their mobility right or participate in the programme on a zero-grant basis.
5. Except in cases of force majeure, if the mobility ends before the minimum study mobility period of two months has been completed, the activity will be considered invalid. No grant will be paid, and any advance payment already made will be recovered. Documented cases of force majeure will be assessed separately under the relevant implementation rules.

Country Group	Countries	Monthly Grant
Groups 1 and 2	Germany, Austria, Belgium, Czechia, Denmark, Estonia, Finland, France, Greek Cypriot Administration of Southern Cyprus, the Netherlands, Ireland, Spain, Sweden, Italy, Iceland, Latvia, Liechtenstein, Luxembourg, Malta, Norway, Portugal, Slovakia, Slovenia, Greece	€600
Group 3	Bulgaria, Croatia, North Macedonia, Lithuania, Hungary, Poland, Romania, Serbia, Türkiye	€450

GRANT PAYMENT PROCESS AND DOCUMENTATION

6. The individual support grant will be calculated for a maximum of five months (150 days), even if the mobility lasts longer. The first grant payment will be calculated on the basis of this maximum duration.
7. The remaining 30% grant payment will be recalculated according to the actual mobility period, taking into account the student's Certificate of Attendance, transcript issued after the mobility, and other documents showing the duration of the mobility. Where deemed necessary, passport entry and exit records or an entry-exit record obtained through e-Government may be requested.
8. The final payment will be made within no more than 45 days after the student has submitted all mobility documents in full and completed the online participant report, taking into account any applicable grant deductions.

9. The travel grant will be calculated according to the distance band determined using the European Commission's distance calculator and will be stated in the grant agreement signed with the student. It will be paid under the 70% and 30% payment plan applied to the total grant. Boarding passes, tickets, or similar documents may be requested to verify travel dates, green travel, or a route different from the standard points of origin and destination.

ACADEMIC SUCCESS REQUIREMENT AND GRANT DEDUCTION

10. To qualify for the remaining grant payment and avoid a deduction due to academic failure, students must successfully complete at least 20 ECTS of the courses taken at the partner university. The remaining grant payment will be calculated taking into account the student's academic achievement and fulfilment of other obligations.

GRANT DEDUCTIONS RECOVERY AND INVALIDITY

11. Except in cases of force majeure, if a student fails all courses taken at the partner university, the entire individual support grant already paid will be recovered.
12. If a student reduces the approved 30 ECTS workload stated in the Learning Agreement without the approval of the academic units, or fails to have necessary course changes approved within the prescribed period, a grant deduction may be applied under the University's internal regulations and the grant agreement signed with the student.
13. Grant deductions based on achievement in the required 30 ECTS workload at the partner higher education institution will be applied as follows:
- No grant deduction will be applied where the student successfully completes 20–30 ECTS.
 - A deduction of 15% of the total grant will be applied where the student successfully completes more than 10 but fewer than 20 ECTS.
 - Where the student successfully completes 0–10 ECTS, the entire grant already paid will be recovered.
14. Except for where prevented by technical problems, students who fail to complete the online participant report will be subject to a deduction equivalent to 20% of the total actual activity days used as the basis for calculating the grant.
15. If a Certificate of Attendance or an equivalent document proving that the mobility took place, such as the transcript issued after the mobility, is not submitted, the activity will be considered invalid. No grant will be paid, and any grant previously paid will be recovered.

MOBILITY DURATION AND GRANT LIMIT

16. For students selected for grant-funded study mobility, grant payments for one-semester mobility will be made for a maximum of 150 days. For shorter mobility periods, the grant will be calculated on the basis of the actual activity period.
17. The mobility period will be determined on the basis of the partner university's academic calendar and the start and end dates stated in the Certificate of Attendance issued in the student's name. The activity end date is the final day on which the student is academically required to be present at the partner university, including the examination period.

DOCUMENTS AND OBLIGATIONS AFTER THE MOBILITY

18. To receive the remaining grant payment and complete the mobility file, students must submit the Certificate of Attendance, transcript issued after the mobility, and other requested mobility documents to the relevant unit. Where deemed necessary, students may be asked to provide an entry-exit record obtained through e-Government or copies of passport pages bearing entry and exit stamps. Foreign-national students must obtain the requested entry-exit document from the relevant competent authorities and submit it.

19. All mobility documents must be submitted in accordance with the procedure determined by Ankara Bilim University (ABU) no later than 30 days after the activity end date stated in the Certificate of Attendance.
20. If the documents are not submitted in full within the specified period, the remaining grant payment will not be made until the documentation is complete. If the Certificate of Attendance or an equivalent transcript proving participation in the mobility is not submitted, the activity will be considered invalid; no grant will be paid and any grant previously paid will be recovered.
21. To initiate course recognition procedures, students must submit the transcript issued after the mobility and the relevant academic documents within the prescribed period. Missing passport, entry-exit, or other financial documents do not, by themselves, constitute grounds for preventing academic recognition.

ADDITIONAL GRANT SUPPORT

22. Students wishing to benefit from additional grant support must upload official documents proving their relevant status to the system during the application. Circumstances not documented within the application period will not be considered for additional grant support. Failure to provide documentation for additional grant support does not affect the validity of the student's Erasmus+ study mobility application.

TOP-UP SUPPORT FOR PARTICIPANTS WITH FEWER OPPORTUNITIES

23. Participants with fewer opportunities receive Top-up Support in addition to the grant for which they are eligible. For long-term student mobility (2–12 months), Top-up Support of €250 per month is provided. A participant with fewer opportunities is defined as an individual who is economically and socially disadvantaged and belongs to at least one of the following categories:
 - Those who are or have been subject to a protection, care, or accommodation order under Law No. 2828 on Social Services.
 - Those who are or have been subject to a protection, care, or accommodation order under Law No. 5395 on Child Protection.
 - Those receiving an orphan's pension or survivor's pension.
 - Spouses and children of martyrs and veterans, and veterans themselves.
 - Those who can prove by official documentation that they, their family, or their legal guardian regularly receive social assistance at the time of application from municipalities, ministries, Social Assistance and Solidarity Foundations, the Directorate General of Foundations, the Turkish Red Crescent, or a similar public institution or public-benefit organisation.
 - Students document a disability rate of at least 50% through a Disability Health Board Report issued under the relevant legislation.
 - Those whose parents or legal guardian receives a disability or means-tested pension under Law No. 2022.
 - Those who themselves, or whose first-degree relatives (biological/step), receive disaster-victim assistance from AFAD.

Mobility Type	Top-up Support
Student mobility lasting 2–12 months	€250 per month
Short-term mobility lasting 5–14 days	+€100 in addition to the total grant
Short-term mobility lasting 15–30 days	+€150 in addition to the total grant

***Scholarships from the Credit and Hostels Institution (KYK), merit scholarships, and similar scholarships, assistance, or one-off payments are not considered financial support within this category.**

TRAVEL SUPPORT AND CALCULATION PRINCIPLES

24. To contribute to students' travel costs, the distance in kilometres between the starting point of the mobility and the place of activity will be determined using the European Commission's Distance Calculator, and the travel grant will be calculated according to the table below.
25. The distance obtained from the Distance Calculator represents the one-way distance between the starting point of the mobility and the place of activity. The travel grant corresponding to that distance band in the table below is the total amount for the round trip and must not be multiplied by two.
26. The travel grant will be calculated according to the distance band when the grant agreement is signed and paid under the 70% and 30% payment plan established for the total grant. As the travel grant is provided as a unit contribution, invoices showing travel costs are not normally required. However, boarding passes, tickets, invoices, or passport entry-exit records may be requested to verify travel dates, green travel, or a route different from the standard points of origin and destination.
27. Subject of proofing through the required documents, students using standard travel may receive individual support for a maximum of two travel days in total before and after the activity, while students using green travel may receive individual support for a maximum of six travel days in total. Travel grant amounts by distance are shown below:

Distance Band	Standard Travel Grant	Green Travel Grant
10–99 km	€28	€56
100–499 km	€211	€285
500–1,999 km	€309	€417
2,000–2,999 km	€395	€535
3,000–3,999 km	€580	€785
4,000–7,999 km	€1,188	€1,188
8,000 km or more	€1,735	€1,735

GREEN TRAVEL SUPPORT

28. Green travel means travel undertaken using low-carbon public transport, such as train, bus, or car sharing.
29. Students choosing green travel may receive individual support for a maximum of six travel days in total before and after the activity. To qualify for green travel support:
- green modes of transport must be used for both the outward and return journeys.
 - More than 50% of the total round-trip distance must be covered using green modes of transport.
30. The starting point of the journey is Ankara, where Ankara Bilim University is located, and the place of activity is considered to be the city in which the partner university is located. If the journey begins in a different city, or the activity takes place in a city other than that of the partner university, and this changes the distance band, the actual travel route will be used and supporting documents may be requested.
31. As a rule, participants are expected to choose low-emission means of transport for distances below 500 kilometres.
32. Students wishing to benefit from green travel support must submit tickets, invoices, or similar supporting documents showing both the outward and return parts of the journey to the relevant unit.

APPEAL WITHDRAWAL AND ZERO-GRANT PARTICIPATION PROCESSES

Appeal Process

33. Following the announcement of the preliminary evaluation results, students may submit a written appeal. Appeals must be sent to the relevant unit within the period stated in the announcement as an email attachment containing a signed petition. Appeals submitted outside the specified period or procedure will not be considered.

Withdrawal Process and Sanctions

34. Following the announcement of final results, students selected for grant-funded mobility may withdraw within the period specified in the announcement. No point deduction will be applied to students who submit their withdrawal notification within this period.
35. Students who fail to participate in mobility without submitting a withdrawal notification within the specified withdrawal period and without force majeure will receive a deduction of 10 points in their next Erasmus+ mobility application.
36. If a student withdraws from the mobility right, the vacant grant and quota may be transferred to an eligible reserve candidate, taking into account the partner universities' nomination and application deadlines, the visa process, the activity calendar, and the announced quota transfer principles. Whether a transfer is made will be decided by the Erasmus+ Selection Committee. A possible grant or quota transfer does not constitute an acquired right for reserve candidates.

Zero-Grant Participation Process

37. After the final evaluation results are announced, students who meet the application requirements and took part in the general evaluation process but were not allocated a grant may apply by petition to participate on a zero-grant basis, regardless of whether they were listed as principal or reserve candidates. Students who did not apply during the application period may not subsequently request zero-grant participation.
38. Requests for zero-grant participation will be evaluated and decided by the Erasmus+ Selection Committee, taking into account students' final Erasmus scores, inter-institutional agreement quotas, the partner universities' application requirements, and the relevant deadlines.
39. Students approved for zero-grant mobility are subject to the same application, evaluation, selection, academic, and administrative processes as grant-funded students. The only difference is that zero-grant students are not included in budget calculations and receive no grant payment.
40. The placement and nomination of zero-grant students at partner universities will be carried out by considering the final Erasmus score ranking, students' preferences, inter-institutional agreement quotas, and the partner universities' nomination and application deadlines.
41. Zero-grant mobility cannot be undertaken if no quota is available at the preferred partner university, the partner university's application deadline has passed, or the student does not meet the partner university's admission requirements.
42. If additional resources subsequently become available for students selected on a zero-grant basis, grant allocation may be made by decision of the Erasmus+ Selection Committee, either according to the final Erasmus score ranking or equally among all zero-grant students. Any change in grant allocation must be implemented before the student completes the activity by updating the grant agreement or issuing an addendum.

For matters not covered in this call, the provisions of the Erasmus+ Implementation Handbook published by the European Commission and the Turkish National Agency shall apply.
