

ANKARA BİLİM
ÜNİVERSİTESİ

EXAMPLE OF ANKARA SCIENCE UNIVERSITY INTERNSHIP PRESENTATION

The Purpose of the Internship (This title is optional)

- ▶ The purpose of the internship is explained. (Subheading Example: Relationship Between Information Technology and Management.) (Narrative Example: As a student of the Department of Management Information Systems, I decided to do an internship at an IT company with the aim of improving myself in the field of information technology. The applications of information technologies in the field of management have captured my interest, and I believe that there will be an increasing need for employees and managers who have developed themselves in this field in the future. Therefore, I wanted to do my internship at a company operating in this field.)

The Institution of the Internship (This title is optional)

- ▶ The reason for choosing the specific institution for the internship is explained. (Subheading Example: ABC Information Technologies Inc.) (Narrative Example: ABC Information Technologies Inc. utilizes information technologies in each function of human resources, including planning, recruitment, orientation, training and development, performance management, and motivation. I decided that interning at ABC company would be the best option for me to work in the field of training and development in the future, to benefit as much as possible from information technologies in this area, to learn how information technologies are applied in this sector in practice, and to develop myself.)

The Relationship of the Internship with the Department (This title is optional)

- ▶ The relationship of the internship with the department is explained. (Subheading Example: Relationship between Management Information Systems and ABC Information Technologies Inc.) (Narrative Example: Management Information Systems is a field where management discipline is combined with information technologies to form a cohesive area. Nowadays, the information technologies used by most companies make management both more effective and efficient. ABC Information Technologies Inc. has integrated information technologies into all its administrative processes. In this sense, ABC Information Technologies Inc. applies the theoretical concepts of the Management Information Systems Department in practice.)

The Duration of the Internship and Detailed Internship Program (This title is optional)

- ▶ The duration of the internship is explained. (Subheading Example: Duration of the Internship.) (Narrative Example: The internship duration is 56 working days.)
- ▶ The weekly and daily schedule of the internship is explained. (Subheading Example: Internship Schedule) (Narrative Example: The internship is conducted five days a week. Each day, routine tests are performed to check for vulnerabilities in information technologies. These tests involve adding new lines of code or conducting in-house hacking attempts. Subsequently, pre-defined routine tasks related to the management applications of information systems are carried out. Work is also done based on the requests of other companies receiving services.)

The Gains from the Internship (This title is optional)

- ▶ The impact of the internship is explained. (Subheading Example: Skills and Talents Acquired from the Internship.) (Narrative Example: During this internship, I had the opportunity to see how the knowledge I gained at the University is applied in practice. I realized that some information from courses that I thought would not be useful in my work life could actually be encountered in the industry. The blend of theoretical knowledge with practical experience helped solidify the information in my memory. Thanks to the gains I obtained from this internship, I believe I will be more advantageous in finding a job after graduation. I am particularly confident that I have developed myself in understanding, learning, and using information technologies used in the field of human resources.)

Evaluation of the Internship Experience (This title is optional)

- ▶ Overall assessment of the internship is provided. (Subheading Example: General Evaluation.) (Narrative Example: I can say that the internship has left overall positive impacts. It was highly beneficial to witness the practical applications of theoretical knowledge.)
- ▶ The positive aspects of the internship are discussed. (Subheading Example: Positive Aspects of the Internship.) (Narrative Example: I believe that the skills and work experience I gained during my internship will make it easier for me to find a job after graduation and will benefit my career.)
- ▶ The negative aspects of the internship are discussed. (Subheading Example: Negative Aspects of the Internship.) (Narrative Example: I believe that there was a lack of alignment between the department I worked in during the internship and the department I aspire to join or consider myself talented in.)

Thanks (This title is optional)

- ▶ The presentation concludes by expressing gratitude to the individuals or institutions to whom thanks are desired.
