**ENG 101 & ENG 102 EXEMPTION EXAM**  
(ENGLISH MEDIUM DEPARTMENTS)

**SAMPLE EXAM**

*This document contains sample questions only. It illustrates the format, question types, and level of the actual ENG 101 & ENG 102 Exemption Exam and does not contain any question from the real exam.*

*Bu belge yalnızca örnek sorulardan oluşmaktadır. Gerçek sınavda kullanılan sorulardan hiçbirini içermez; yalnızca sınavın formatını, seviyesini ve soru tiplerini göstermek amacıyla hazırlanmıştır.*

**Instructions: This sample includes 8 questions covering all the skill areas measured in the actual exam: Vocabulary, Reading, and Writing.**

**PART I — VOCABULARY**

---

**Choose the word that best completes the sentence.**

**1. City planners had hoped to finish the new metro line within two years, but a series of unexpected \_\_\_\_\_, including funding delays and technical failures, pushed the completion date back by nearly a decade.**

- a) obstacles
- b) milestones
- c) outcomes
- d) resources

**PART II — READING**

---

**Read the text below, then answer questions 2–5.**

- A.** Over the past several years, more companies around the world have allowed employees to work from home instead of commuting to a traditional office every day. For many workers, this shift has brought welcome flexibility: no more long commutes, more time with family, and greater freedom to organize the day around personal responsibilities. Recent workplace surveys suggest that most employees who have experienced remote work would prefer never to return to a full-time office schedule.
- B.** However, remote work is not without its downsides. Some employees report feeling isolated, missing the casual conversations and spontaneous collaboration that occur naturally in a shared office space. Managers, too, have raised concerns about maintaining team spirit and monitoring productivity when staff members are scattered across different cities or even countries. As a result, a number of companies that initially embraced fully remote policies have since introduced hybrid models, requiring employees to come into the office two or three days a week.
- C.** Critics of remote work argue that it weakens company culture and makes it harder for new employees to learn informally from more experienced colleagues. They point to internal company surveys showing that younger staff members, in particular, report slower skill development when working from home. Supporters, however, counter that such concerns are exaggerated and that, with the right digital tools, collaboration can be just as effective online as it is in person. What remains clear is that the debate over the future of work is far from settled, and organizations will likely continue experimenting with different arrangements for years to come.

### **READING FOR MAIN IDEAS**

2. What is the main idea of this passage?

- a) Remote work always increases employee productivity.
- b) Working from home offers real benefits but also creates ongoing challenges.
- c) Every company should adopt a fully remote work policy.
- d) Younger employees always prefer a traditional office setting.

### **READING FOR COMPREHENSION AND DETAILS**

3. According to the passage, why have some companies introduced hybrid work models?

- a) Employees demanded higher salaries.
- b) They wanted to address concerns about team spirit and productivity.
- c) Office space had become too expensive to maintain.
- d) New government regulations required it.

### **READING SKILL**

Read the excerpt from paragraph C: “They point to internal company surveys showing that younger staff members, in particular, report slower skill development when working from home.”

4. What does the word THEY refer to?

- a) new employees
- b) experienced colleagues
- c) critics of remote work
- d) company managers

### **CRITICAL THINKING SKILL**

5. What is the author's overall tone toward the debate on remote work?

- a) strongly supportive of remote work
- b) strongly critical of remote work
- c) balanced, presenting both sides without taking a clear position
- d) uninterested in the topic

**I. WRITING SKILL**

**6. Read the paragraph. Choose the correct form of organization.**

Air pollution in major cities has reached alarming levels, contributing to respiratory illness and reduced life expectancy among residents. In response, local governments have taken several concrete steps to address the issue. First, low-emission zones have been created in city centers, restricting access for older, more polluting vehicles. Second, financial incentives have been introduced to encourage residents to switch to electric cars. Finally, many cities have expanded cycling infrastructure to promote cleaner alternatives to driving.

- a) comparison
- b) chain of effects
- c) problem-solution
- d) sequence of events

**7. Match each statement with its most logical counterargument.**

- 1. \_\_\_\_ Working from home saves employees a significant amount of commuting time every week.
- 2. \_\_\_\_ Hybrid work models are becoming the standard arrangement in many industries.

- a) Yet, some companies still insist that employees return to the office full-time.
- b) However, many employees find it difficult to separate their work life from their home life.

**II. WRITING PRACTICE**

**8. Read the paragraph. Choose the best paraphrase.**

*Although solar panels require a considerable upfront investment, they can significantly reduce a household's electricity bills over time and lower its carbon footprint, making them an increasingly popular choice among environmentally conscious homeowners.*

- a) Despite the high initial cost, solar panels can lower electricity expenses and reduce a household's environmental impact over time, which explains why more environmentally aware homeowners are choosing them.
- b) Solar panels are inexpensive to install and immediately eliminate electricity costs for environmentally conscious homeowners.
- c) Because solar panels reduce carbon footprints, homeowners no longer need to pay for installation.
- d) Solar panels are popular mainly because they are cheaper to install than traditional electricity systems.

**ANSWER KEY**

| <b>Question</b> | <b>Correct Answer</b>                                                             |
|-----------------|-----------------------------------------------------------------------------------|
| <b>1</b>        | a — obstacles                                                                     |
| <b>2</b>        | b — Working from home offers real benefits but also creates ongoing challenges.   |
| <b>3</b>        | b — They wanted to address concerns about team spirit and productivity.           |
| <b>4</b>        | c — critics of remote work                                                        |
| <b>5</b>        | c — balanced, presenting both sides without taking a clear position               |
| <b>6</b>        | c — problem-solution                                                              |
| <b>7</b>        | 1 — b / 2 — a                                                                     |
| <b>8</b>        | a — Despite the high initial cost, solar panels can lower electricity expenses... |
