

Fitview Travel

"FitView Travel" is a web application that allows users to track their health data and experience virtual travel worldwide. Thanks to this application created with Vue.js, you will receive health data with Google Fit and view this data as a recent activity profile. The app provides navigation on StreetView via Google Maps and StreetView APIs. Users can take a virtual walk anywhere in the world using the app. The app also provides a real-time fitness experience with instant data from the smart wristband.
